Data source and methods

Incidence

Country-specific data source: Registry (subnational)
Method: Subnational rates applied to 2024 population

[Click here to see detailed data source and methods](#)

Mortality

Country-specific data source: subnational
Method: Subnational rates applied to 2024 population

[Click here to see detailed data source and methods](#)

Prevalence

Computed using sex-, site- and age-specific incidence to 1-,3- and 5-year prevalence ratios from Nordic countries for the period (2011–2020), and scaled using Human Development Index (HDI) ratios.

ASR (World) incidence and mortality rates, top 15 cancers**

ASR (World) incidence rates per sex, top 15 cancers**

* includes non-melanoma skin cancer (NMSC)

** NMSC included in other cancers

Age standardization using world population ([see link](#))
