## Data source and methods

### Incidence

Country-specific data source: [{"dt\_list": "National cancer registry"}]

Method: National (or sub-national with coverage greater than 50%) rates projected to 2022

### Mortality

Country-specific data source: National (WHO)

Method: National rates projected to 2022

### Prevalence

Computed using sex-, site- and age-specific incidence to 1-,3- and 5-year prevalence ratios from Nordic countries for the period (2011–2020), and scaled using Human Development Index (HDI) ratios.

\* includes non-melanoma skin cancer (NMSC)

\*\* NMSC included in other cancers

Age standardization using world population ([see link](#))
